National Associated Press to the Star.

TAKEN SERIOUSLY TO HEART.

St. Louis, Oct. 21.—Sunday morning Sadie Smith, a woman twenty-four years of age, both frail and fair, who has had a mysterious connection with a negro named Dory Williams for some time past, accused her sly lover of infidelity, and as soon as he left the house, took an effective dose of morphine, which will forever prevent a repetition of the charge.

PRAIRIE PIRATES CAPTURED.

KANSAS CITY, Mo., Oct. 21.—A well conceived plan to rob the Kansas Pacific Express cars while the train was moving across the prairie was frustrated Saturday near Rock Spring Station, two hundred and four miles west of this city. Information was obtained from one of the gang, who came into Brookville and gave his partners away, claiming that they had gone back on him. Superintendent Oakes, of this city, telegraphed the Superintendent of the Smoky Hill Division to keep on the alert and do everything in his power to capture the men. A picked posse of railroad men started and came upon the gang, five in number, about daylight, when a terrible fight took place. Mike Rourke, the leader of the gang, was captured, and Dan, Dewent was badly wounded. The last named escaped in the brush. The wagon and arms of the whole party were captured, and the armed men continued in pursuit of the remainder of the gang, who are fleeing to the Indian Nation. Rourke was the leader of the gang who robbed the Kansas City, St. Joe & Council Bluffs train last spring near Winthrop, on the Santa Fe Railroad. A reward of \$5,000 was offered for him for some time. His capture will break up this pirate gang.

BRAINED WITH A SLEDGE-HAMMER.

NASHVILLE, Oct. 21.—Lewis Mullen, colored, in a quarrel with his wife, killed her with a twelve-pound sledge-hammer.

BODY-SNATCHERS SHOT.

NASHVILLE, Oct. 21.—Saturday morning Mrs. Mary A. Ferguson was buried in Mt.

Olivet Cemetery, the grave being near the hedge separating the grounds from those of the Catholic Cemetery. About 10 o'clock at night four resurrectionists appeared on the spot and leisurely went to work.

The guard at the time was in another part of the grounds, but hearing a noise he quietly hastened up, crouching in the shadows. He came within a few yards of the grave and watched developments. When the body-snatchers had worked awhile he suddenly arose with his gun leveled at them. They started on a brisk run when he emptied both barrels of his heavily loaded shotgun at them. The resurrectionists leaped the hedge and were followed to the fence by the guard. A negro man leaving near heard the party rush by his house toward a wagon on the road. One of the party dropped, and had to be carried by the others.

The guard returned to the grave and found a brace and bit, an old, well-worn spade, and a gunny bag. In the morning an examination was made, and blood was found on the hedge and sod over which the party had run.

DARING PITTSBURG BURGLARY.

PITTSBURG, Pa., Oct. 21.—Some time during last night the suburban residence at Hazelwood, of Hon. Geo. H. Anderson, the Postmaster of this city, was entered by burglars. Mr. Anderson was arrested by a feeling of suffocation, and chloroform had been placed on his face. He arose, and pretending that he was going for a drink of water, so as not to alarm his wife, secured a revolver. His wife, thinking him sick, also got up, but Mr. Anderson, to get her out of danger, hustled her into a closet and closed the door. He then ran down stairs, but the burglars had taken alarm and fled. It was discovered this morning that they had taken about \$600 worth of silverware, including a solid set presented to Mr. Anderson in 1873 by the State Senate, when he was President of that body.

THE FROST-NIPPED FEVER.

National Associated Press to the Star.

LATEST FROM NEW ORLEANS.

NEW ORLEANS, Oct. 21—1 P. M.—Official statement of yellow fever cases reported in the city: Deaths from 12 m. yesterday to 12 m. to-day, 44; new cases, 31. Total cases to date, 12,312; total deaths, 3,733.

Mr. H. H. Hunt, acting chief operator in the Western Union Telegraph office, died at 1 o'clock this morning of yellow fever.

AT MEMPHIS.

MEMPHIS, Oct. 21.—Another fine frost yesterday morning and a lighter one this morning makes four in succession, and these are telling most miraculously upon the health of the city, and the impetus given all kinds of business preparations.

Visiting physicians and nurses are already making their arrangements to leave for their homes, and soon this grand hospital will be converted into a business metropolis, crowded and jammed with the eager masses from the interior, anxious to replenish their exhausted stocks of groceries and merchandise, for which the trains and steamers will be loaded to their utmost capacities with cotton and other produce to be given in exchange. Physicians are somewhat anxious, for fear the rush will come too soon, and that the eager desire to return and resume business may cause a fresh outbreak of the fever, which can only be averted by a continuous spell of cold weather. They admonish refugees not to return until authorized to do so by the medical authorities.

The Relief Associations are making preparations to wind up business.

Twenty physicians made most gratifying reports last night. Only eight new cases in the city limits, and eighteen in the suburbs, a total of twenty-six new cases. Among them are Miss Del Roach, daughter of A. J. Roach, the Front-street grocer, and Mrs. W. H. Berry, wife of one of the clothing firm of Grubbs, Austin & Berry.

AT NEW ORLEANS.

NEW ORLEANS, La., Oct. 21.—As was the case here in September, the cold weather has brought out the fever in Algiers, Gretna and Carrollton.

Frost is reported as far south as Tangipahoa. Clear and cool. Reports of the Board of Health for the twenty-four hours ending at noon: Deaths, 29; cases reported, 44.

AT GALLIPLIS.

GALLIPLIS, O., Oct. 21.—Two more deaths from yellow fever below us—Mr. Joseph Skinner, a farmer living four miles from the city, and Samuel Curry, a young lad and son of Mr. George Curry, living on the outskirts of the city. Six cases are convalescent, the only ones now on the docket.

AT DECATUR, ALA.

DECATUR, Ala., Oct. 21.—A sad Sunday was passed here. Five new cases. Among the dea isare: C. E. Thomas, of the Southern Express Company; Rev. Joel W. Whitton, pastor of the M. E. Church, and F. Edward Armstrong.

THE RECORD IN NEW ORLEANS.

NEW ORLEANS, Oct. 21.—29 deaths and 30 new cases were reported in the twenty-four hours ending at 6 o'clock Saturday night.

Mr. A. D. Babbitt, operator in the Western Union office, and Secretary of the Telegraphers' Aid Committee, died Sunday morning and was buried in the afternoon by the Washington Artillery, of which he was an active member.

GENERAL ABATEMENT OF THE PLAGUE.

NEW YORK, Oct. 21.—Latest dispatches from the yellow fever regions of the South show a decided abatement of the epidemic. Frost appeared in several places and more expected. Outlook now encouraging.

THE RED-SKINS.

Sitting Bull Still Wants a Fight—Boys Attacked by the Indians, Etc.

National Associated Press to the Star.

BISMARCK, D. T., Oct. 21.—Captain Allen, of the Mounted Police, arrived yesterday, directly from Sitting Bull's camp. He reports that the buffalos are scattered in all directions. Sitting Bull is hostile and determined with some of his tribes so inclined to return to the United States. Allen says if the renegade Cheyennes escape General Miles and cross the Canadian line the inclination to return will disappear. An attempt to assassinate Major Walsh failed through the friendship of Sitting Bull, over whom Walsh seems to have great influence.

SIDNEY, NEB., Oct. 21.—A courier who has arrived from Greenwood Ranch, twenty-eight miles north of here, reports that on Friday night a lad named Shaffer, aged seven years, was shot and instantly killed by the Cheyennes. An elder brother was severely wounded. The Indians then rode off, keeping pickets out. The boys were hunting their cattle a few rods from their house when they were attacked.

OMAHA, Oct. 21.—The Joint Indian Commission has arrived from the Omaha and Winnebago Agencies, and started West yesterday in a special car to continue its

tour. It will visit the principal Indian tribes in the West, including the Red Cloud and Spotted Tail Indians, the Sedans in Colorado, Wyoming and Utah, and those on the Pacific Coast, and, on its return, will endeavor to interview the Bannocks. The Commission examined the head men and chiefs of the Omaha and Winnebago tribes. The traders, Indian Agents and farmers stated that they found these half-civilized tribes contented, industrious and sober. Several young women teachers of the Omaha tribe were met who had been educated at Elizabeth, N. J., and they gave evidence of considerable culture. Both tribes complained that their annuities were too small and said they wanted individual farms in their own names, and asked to sell the spare land. They expressed a desire to become citizens. Concerning the transfer of the Indian Bureau to the military authorities the Winnebagoes are indifferent and the Omahas are opposed to the transfer. The Omahas begged for agricultural implements. Each tribe complained that the other system their ponies and asked the Commission to interfere. The members of the Commission state that they were surprised at the degree of civilization which has been reached in these tribes, and their ideas have been much modified.

CHICAGO.

Religious—Local Storm Signals—The German Commission—Criminal, etc.

National Associated Press to the Star.

CHICAGO, Oct. 21.—D. L. Moody, the Evangelist, preached twice in his Chicago Avenue Church here yesterday morning and evening. He also delivered an address to young men in Farwell Hall.

The German Imperial Commission, sent to this country to study our Internal Revenue system, with the view of improving that of Germany, is in the city. The Commission consists of Richard Ermeler, a tobacco manufacturer of Berlin; D. R. Mayer, of the Bavarian Revenue Department, and Carl Pieg, Chief of Customs at Frankfurt-on-the-Main. They have already visited Baltimore, Washington, Richmond, and other leading tobacco manufacturing cities. The revenue of the German Government from tobacco is but \$4,000,000 per annum, while that of the United States is about \$40,000,000, and yet the consumption of the two countries is believed to be about the same.

Marshall Benner, of the Chicago Fire Department, has a scheme to notify citizens generally of approaching storms by the Local Signal Office sending word to the Fire Department Headquarters, whence it will be telegraphed to the various Engine-houses, where storm signals will be posted. The Signal Bureau at Washington will be applied to for permission to thus localize the service, and if it is given the scheme will be put into operation at once.

The Coroner's Jury in the case of Officer Albert Race yesterday returned a verdict that the officer was shot by John Lamb, and recommended that James Driscoll, Jas. Griffin, alias Orr, George Freeman, alias Sheely, John Melvin, Wm. Lynette, Wm. Lane and Philo Murphy, be held without bail as accessories to the crime, and expressed the opinion that the pawnbroker, L. Friedley, has a guilty knowledge of the whole matter. The verdict against Lamb was mainly given on the strength of the colored woman who saw the shooting, and positively identified him as the assassin.

The Chickasaw Guards of Memphis, who have been for several days giving exhibition drills for the benefit of the yellow fever sufferers, left last night for Cincinnati.

THE METROPOLIS.

Dr. F. W. Hunt.

National Associated Press to the Star.

NEW YORK, Oct. 21.—Dr. F. W. Hunt, who died in this city yesterday, was born in Wayne County, Ind., and is a direct descendant of Colonel Jonathan Hunt, who figured gallantly in the French colonial wars and during the Revolutionary war. Dr. Hunt was sixty-eight years old.

Rough Weather.

The steamships Celtic and Denmark, from Liverpool, had a rough passage. The Denmark experienced a ninety-six hours' hurricane. No loss of life nor damage to ship.

Arrivals.

NEW YORK, Oct. 21.—The steamer Celtic from Liverpool and the Ailsa from Aspinwall arrived here this morning.

Political.

National Associated Press to the Star.

THEY ALL DO IT.

St. Louis, Oct. 21.—The work of nominating a city ticket by each of the three parties is over, and politicians are in a great dilemma as they were previous to placing their candidates in the field. It proves now that the Democratic primaries were in almost every ward conducted by fraud, and in some instances the ballot boxes were changed and other boxes stuffed with a requisite number of votes to elect the desired candidates to the Convention. In some instances there were more votes cast in certain precincts than there were voters in the ward. These and other similar frauds were developed by a committee appointed by the Democratic Central Committee for the purpose of investigating these charges, and which met Saturday night. The difficulty with the Republicans is that their Convention was a little too harmonious, and the easy process through which their nominees slipped into position has proved that their political machine was too thoroughly oiled in the heat of their excitement, and the desire that the proceedings of their Convention would not be characterized like the opposition's, as a stormy one. They made a bad selection in the person of A. J. Dyer for Judge of the Court of Criminal Correction. Upon the second thought the Central Committee met Saturday night and requested the withdrawal of Mr. Dyer.

WHY SHOULD DON CAMERON BE U. S. SENATOR?

LANCASTER, Pa., Oct. 21.—One of the most noticeable incidents of the Pennsylvania political campaign occurred here Saturday night. Daniel Dougherty Phillips, the famous orator, who has not taken any active part in politics for years, spoke in Featon Hall, which was packed with people, on "Why should Don Cameron be United States Senator?" He regarded this as the vital issue of the State campaign, and one directly involved in the election of State officers and the Legislature. He reviewed Don Cameron's career, and failed to find in any reason for the bestowal upon him of this high honor of a great Commonwealth. He had no fitness for it, deserved it by no merit of himself or family, had rendered no valuable service to the Nation or his fellow-citizens, and was only Senator now and expected to be re-elected by reason of the enormous political influence of his father, acquired in a long career of villainy, bribery and systematic corruption, beginning with his fraud upon the Winnebagoes.

Mr. Dougherty took up every act of Simon Cameron's public career, his bribery of the Legislature in 1845 to beat Judge Wood-

ward for the State Legislature, his purchase of three Democrats to beat Forney in 1857, his corrupt practices in the War Department, his attempt to bribe a Democratic Senator in 1863 to beat Buckalew, his re-election in 1869 and 1872 by similar means, his bulldozing of Grant to make Don Secretary of War, his transmission of his Senatorial seat to his son, and his demand upon Hayes for the English Mission. He cited Republican authorities and official record to prove all he said, and brought down the house again and again by quoting from Wm. D. Kelley's anti-Cameron letter of 1865, in which he spoke of Cameron's "long career of crime," his "buzzard-winged fame," his "infamy and disgrace," and said that though no stone might mark his (Kelley's) poor remains, that his children could vindicate his name by pointing to the fact that Cameron was ever hostile to him, and yet within twelve years Kelley headed the delegation which asked for Don Cameron's Cabinet appointment, and again crawled to the Executive Chamber and besought the English Mission for old Simon.

Fresh Fires.

National Associated Press to the Star.

BIG BLAZE IN HARTFORD.

HARTFORD, Conn., Oct. 21.—A fire broke out at 3 o'clock Sunday morning in the boiler-room of the Hartford Foundry and Machine Company, and gained such headway that a general alarm had to be sent out calling on the entire Fire Department. It was only by most desperate exertions that a destructive fire was prevented. Owing to a lack of water they were unable to confine the flames to that portion of the factory where it originated, and in a short time the fire had worked into the main building, which contained much valuable machinery and finished work. This building was completely gutted. The loss will probably reach \$25,000, which is insured. While directing the firemen's efforts Chief Engineer Eaton fell through a skylight from the roof of a building adjoining the burning factory a distance of twenty-five feet, and it is possible that his injuries may prove fatal. He had both wrists fractured, nose, lower jaw and three ribs broken, besides being severely cut and bruised about the face and body.

NEAR KROOK, IOWA.

KROOK, Ia., Oct. 21.—The store and dwelling of Thomas Cross at Arbella was destroyed by fire yesterday. Loss \$1,200; fully insured. Goods to the value of \$5,000 were saved. During the fire W. M. Moon, who was assisting in saving goods, fell dead from excitement or exhaustion.

Paid for His Smartness.

National Associated Press to the Star.

ROCHESTER, N. Y., Oct. 21.—A singular suit has just been decided here. Walter J. Osborne brought suit against Alexander Prentice, Jr., alleging that defendant sent him a postal card, directed in care of his employer, containing among other things this statement: "You have collected bills due us and used the money to the amount of \$27 31; so please call and settle and save trouble." Suit for \$5,000 was brought. The Court refused a non-suit, and the jury brought in a verdict of \$150 against defendant.
